# **ZX-PA** SERIES - Analog Position Transducer RATIOMETRIC VOLTAGE OUTPUT

With dimensions of  $.73 \times .73 \times .375$ , the **UniMeasure ZX-PA Series** is the world's smallest stringpot. With a total measurement range of 1.5" (38 mm), a wide operating temperature range and long cycle life, the ZX-PA-1.5 is perfect for applications where space is at an absolute premium and maximum performance is required.

A co-molded maximum life potentiometer is mounted into the anodized aluminum housing of the unit. The mounting holes in the housing allow mounting with two #2 or two 2 mm screws. Alternatively the unit may be mounted with two 4-40 screws that thread directly into the housing. The wire rope of the unit may be ordered with an eye fitting termination or with a length of leader wire rope, a clip, and several crimp fittings to hold the clip in place.
